NEW February 2011 data update to this release now available: <http://bit.ly/ybXfdR>

U.S. IT job losses slow, while Canada reverses Q1 losses to post net job growth in tech jobs.

Meanwhile pay rises for 28 skills and certifications against declines in 46. signalling continuing evidence of IT counter trending.

Vero Beach, FL, July 26, 2009 – Although U.S. employment numbers for June 2009, released in early July by the Department of Labor, showed fewer bright spots for IT professionals compared to the month prior, 1,800 fewer jobs were lost in the bellwether IT job segments in further signs of IT labor resilience. Even more promising, following a loss of 273,000 jobs the first three months of 2009, is the news that net second quarter total job losses in Canada numbered only 13,000 with net gains of 26,000 information, culture and recreation jobs and 4,000 professional, scientific and technical services positions.

In newly updated surveys of pay premiums for IT skills involving nearly 2,000 U.S. and Canadian employers, noncertified and certified IT skills declined an average of 0.6% and 1.5% respectively in April, May, and June as the economic recession continued to exert downward pressure on IT compensation. But in continuing evidence of counter trending, 28 IT skills and certifications increased in value during the period while 46

NEW February 2011 data update to this release now available: <http://bit.ly/ybXfdR>

showed declines according to the 2nd Quarter 2009 update of Foote Partners' *IT Skills and Certifications Pay Index™* of pay premiums for 385 skills and certifications.

“There’s no sugar coating this dreary economy,” notes David Foote, the firm’s co-founder, CEO and Chief Research Officer. “But it is refreshing indeed to see the continued confidence businesses have in their information technology workforces. The evidence is clear with six full months of 2009 trend data now available for analysis that they are depending on IT’s leadership and ability not only in running operations efficiently and cost effectively, but also in developing and delivering products and services that keep their companies globally competitive in very uncertain markets.”

“For instance, how impressive is it that the Management, Methodology and Process category of noncertified skills is up 1.1% in value in 2009 and 0.6% in just in the last three months? Leading this group were business process management and modeling skills and project management talent, with 15.4% and 16.7% market value gains respectively since January. And SAP and enterprise business applications skills gained 0.2% value in the last three months, bouncing back from a decline of the same amount in the first three months of 2009 thanks to some solid SAP skills performance.”.

“There’s even been solid numbers in an infrastructure skills category, IT security certifications, which posted solid numbers from April to June. Even better, for the past twelve months security certs leads all categories of skills, both certified and noncertified with an impressive 1.1% gain,” notes Foote. “This is made even more impressive by the loss of 7.5% in value for certifications overall in the past year. And it’s not just regulations, compliance and governance driving the gain. Security has become a key product and service differentiator among customers who are insisting on better protection for their data whether in servers or transported across networks. Companies are working actively to better secure virtualized environments now that the differences in threats to physical and virtual computing environments have become more apparent. And with public disclosure requirements toughening up and triggering more public disclosures of intrusions and data thefts, risks to corporate reputations and brands are more serious now than ever.

This is not at all unexpected, for a few good reasons,” insists David Foote, the firm’s co-founder, CEO and Chief Research Officer. “First, pay for skills is, by its nature and purpose, more dynamic than salaries. Employers use it tactically and strategically to attract and retain talent. And second, that fact is that premium

NEW February 2011 data update to this release now available: <http://bit.ly/ybXfdR>

pay for skills is even more important during tough economic times when fear and uncertainty about job security clouds the judgment of IT professionals.

“That’s because even the best workers are nervous about whether or not they will have a job,” explains Foote. “They’re concerned about stability, and so they look for signs that their employers are recognizing and rewarding them for their skills and contributions. Pay for skills and certifications is perfect for this and also a much more effective motivational tool than salary alone.

Employers can’t afford to appear blasé about their most important IT people. Sending out even a passive message that can be interpreted as ‘you’re not worth investing in’ can result in experienced workers wondering whether they should start considering a change of venue.

“Smart recruiters prey on both this fear and on employers slow to realize their mistake,” warns Foote. “Look, employers may not be able to control a lot of things in the workplace right now, but getting people paid correctly and recognized for a skill removes both negatives. It’s entirely within their control.”

“There’s a lot of hiring and reshuffling of talent right now. It’s not a ‘deer in the headlights’ situation like it was for many during the last recession. Companies have serious labor requirements and many are aggressively stepping up, using compensations wisely meet the demand for specific skills. The main issue then becomes whether to fill the demand from in-house training or external hiring. Either way, you have to get the pay right.”

Counter Trending

The category of **Management/ Methodology/Process skills** (noncertified) continued to “counter trend” in Foote Partners updated benchmark research, increasing one half of one percent in value in the first quarter of 2009 as the result of pay gains for three skills---business process management/modeling/improvement; project management; and ERP. Two other noncertified skills categories, **Messaging and Communications** and **Operating Systems** displayed no change in overall value for the period. They were able to resist the overall

NEW February 2011 data update to this release now available: <http://bit.ly/ybXfdR>

downward trend in skills pay based on positive pay performance of three skills: unified communications/messaging; Linux; and Apple OSX.

Among certification categories, only **IT Security** certifications displayed growth in pay, up slightly at +0.2%. Top performers in this category for the quarter were: Check Point Certified Master Architect; Cisco Certified Security Professional; EC-Council's Certified Hacking Forensics Investigator; ISC2's Systems Security Certified Practitioner; and a group of certifications from the SANS Institute's Global including GIAC Certified Forensics Analyst; GIAC Certified Incident Handler; GIAC Certified Intrusion Analyst; and GIAC Certified Incident Manager.

Similar to noncertified skills, two certification categories showed no change in pay overall: **Architecture/Project Management** and **Training and Beginner certifications**. Notable performers in these categories that helped counteract declines in pay by other certifications in each group included: IT Certified Architect (the Open Group); Microsoft Certified Trainer; and CompTIA Certified Technical Trainer

“Clearly, an urgent demand for niche talent in several IT areas has eclipsed broad, knee jerk reactions to reducing budgets and cutting people, projects and purchases without thinking carefully about the consequences. IT management has matured since they were in this position last time. Executives and managers are thinking more clearly and strategically, and not reacting as poorly during this downturn to the overwhelming pressures to reduce costs. I would characterize their behavior as resilient and resolute, and exercising a lot of restraint. They are listening, building bridges to the business, and they're being flexible. A very positive thing to see in some very negative conditions in our opinion.”

Continues Foote, “Employers are obviously now aware that continuing to invest strategically in IT skills and labor is the smartest thing they can do to make it through the bad times as stronger, undiminished enterprises. They can't afford to lose key people or be caught short when skills requirements are clearly delineated and outsourcing is not an attractive option, or an option at all. If they can keep their critical workers challenged and paid appropriately---in effect, removing two of the most common reasons why people leave their employers---they will have one less problem to worry about.”

Foote Partners HOT LIST debuts

Foote Partners is introducing a new analytical feature this month called the *Foote Partners Hot List*.

Why the Hot List? The concept of what is “hot” has become widely celebrated in the popular media. There has been no greater example of this than IT media outlets reporting of quarterly findings from Foote Partners’ long-running *IT Skills and Certifications Pay IndexTM (ITSCPI)*, which tracks pay and demand for 371 IT skills and certifications. But here is the dilemma: Our analysts too often disagree with so-called “hot lists” of skills that IT publications and media assemble from periodic Foote Partners news releases and attribute directly to Foote Partners research. The problem is that these are news releases distributed to editors and reporters when ITSCPI survey updates occur that contain very abbreviated research views of our ITSCPI findings. They represent only a small portion of what we report to our customers.

The truth is that it takes much more information, research, and analysis to declare a skill or certification “hot” and to then to rank that skill against others. Analyzing pay performance isn’t enough.

The IT skills market intelligence Foote Partners provides to its customers is derived from a variety of rigorous research tools and analytical processes developed expressly for that purpose by our firm. They also include IT spending surveys; empirical findings from interviews with the executives and managers at our more than 1,900 research partners; analyses of vendors and product strategies; assumptions concerning technology evolution; economic indicators; cyclical patterns observed from historical market behavior; and third party research such as the monthly Department of Labor employment reports and the Consumer Price Index.

“To resolve this dilemma, we will now issue our own monthly *Foote Partners Hot Lists*,” announces Foote. “We’ll tell you which skills and certifications are truly “hot” right at this moment, which may be on the cusp of “hot”, and why. We’ll also publish **Hot Lists** that prioritize and rank technology and IT services in categories such as infrastructure, management, ‘customer-facing’, business, and applications, to name a few.

Hot List definition and methodology. In determining what skills are eligible for our **Hot List**, we first look for skills that have recorded the most growth in value over the past 3 to 6 months. Among those, we isolate the skills currently earning the highest premium pay. Next we analyze our most recent survey of IT spending

NEW February 2011 data update to this release now available: <http://bit.ly/ybXfdR>

on technologies and services, focusing on the spending deltas between prior year actual spending and current year estimated budget. As we begin formulating our rankings, we look for factors that may be driving or contributing to interest and demand for a specific skill or group of skills. We conduct a series of interviews within our research partner populations to inquire about their skill priorities and acquisition strategies now and in the near future. We also test for possible variations by industry, size of enterprise, geography, and other elements.

On the follow page are our current *Foote Partners Hot Lists* for certified and noncertified IT skills. In compiling these lists we emphasized Q1 2009 data findings and our projections for Q2 2009.

NEW February 2011 data update to this release now available: <http://bit.ly/ybXfdR>

Foote Partners Hot List

July 2009

Items are displayed in descending order of “hotness”. Generally speaking, for any single item, ranking is somewhat arbitrary within ± 1 positions of that item.

IT SKILLS (Noncertified)

1. Java EE,SE,ME
2. Linux
3. Virtualization (all)
4. Microsoft .NET
5. NetWeaver (SAP)
6. Flex
7. Business process management/modeling/
improvement
8. SAP SM (Service Management)
9. Security*
10. SAN (storage area networking)
11. Project management
12. SAP PS (Project Systems)
13. SAP HCM (SAP HR)
14. SAP FI (Financial Accounting)
15. SAP CO (Controlling)
16. SAP PP (Production Planning)
17. SAP LO (Logistics General)
18. Business Objects
19. ERP (various)
20. Apache HTTP web server
21. Documentum
22. VoIP/IP telephony
23. MySQL
24. PHP
25. ITIL
26. Ajax
27. SAP KW (Knowledge Warehouse)
28. SAP LE (Logistics Execution System)
29. Database management

* IDS/IPS, forensics, identity/access mgt, compliance,
 firewalls, threat/vulnerability assessment and mgt.

IT CERTIFICATIONS

1. GIAC Certified Incident Handler
2. EMC Proven Professional Technology Architect –
Expert
3. Citrix Certified Integration Architect
4. HP/Master Accredited Systems Engineer
5. Cisco Certified Security Professional
6. Check Point Certified Master Architect
7. GIAC Certified Forensics Analyst
8. GIAC Certified Intrusion Analyst
9. EMC Proven Professional Implementation Engineer
– Expert
10. GIAC Certified Incident Manager
11. EC-Council/Certified Hacking Forensics Investigator
12. IBM Certified Specialist - Storage Networking
Solutions, Version 2
13. HP/Accredited Integration Specialist
14. Brocade Certified Fabric Designer
15. Cisco IP Telephony Design Specialist
16. Cisco Certified Design Professional
17. Sun Certified Programmer for Java
18. Microsoft Certified Architect
19. EMC Proven Professional Technology Architect -
Specialist
20. CWNP/Planet3 Certified Wireless Security
Professional
21. Security Certified Network Architect
22. SNIA Certified Storage Architect
23. SNIA Certified Storage Networking Expert
24. Citrix Certified Enterprise Administrator

NEW February 2011 data update to this release now available: <http://bit.ly/ybXfdR>

HIGHEST PAYING **Noncertified IT Skills**

These **noncertified IT skills** are earning the highest pay premiums. Shown by category, in **descending order**. Surveyed through 4/1/09 (*IT Skills and Certifications Pay IndexTM* - Q1 2009 edition)

Systems/Networking Skills

- Virtualization (various)
- SAN/Storage Area Networking
- Network security management
- Security (various, project-based)
- Infrastructure architecture
- Wireless network management (LANs, GSM)
- VoIP telephony

SAP/Enterprise Business Applications Skills

- SAP ERP (multiple skills)
- NetWeaver BI (SAP BW)
- SAP Solution Manager
- SAP Financial Accounting (FI)
- SAP HCM (SAP HR)
- SAP Controlling (CO)
- Oracle Enterprise Apps
- SAP PLM (Product Lifecycle Management)
- SAP Netweaver Applications Server
- SAP BW(BI) Accelerator
- SAP MDM (Master Data Management)
- SAP SEM (Strategic Enterprise Management)
- SAP Web Application Server
- SAP WM(Warehouse Management)
- SAP FI - FSCM (Financial Supply Chain Management)
- SAP WM - EWM (Extended Warehouse Management)
- SAP IM

Messaging and Communications Skills

- Unified communications/messaging

Applications Development Tools and Platforms skills:

- NetWeaver
- RAD/Extreme Programming/Agile Programming
- Java/J2EE,SE,ME
- Oracle Developer Suite Business Objects

Web/eCommerce Development skills:

- Microsoft .NET
- AJAX (Asynchronous JavaScript and XML)
- Microsoft Commerce Server
- Apache HTTP web server
- Documentum
- Microsoft Identity Integration Server
- Oracle Workflow
- WebSphere

Database Skills

- Oracle DB / 8i/9i/10g/11i
- Microsoft SQL Server
- Database management

Management, Process and Methodology Skills

- Business process management/
modeling/ improvement
- Project management
- ERP
- Business intelligence

HIGHEST PAYING IT Certifications

These **IT certifications** are earning the highest pay premiums. Shown by category, in **descending order**. Surveyed through 4/1/09 (*IT Skills and Certifications Pay Index™* - Q1 2009 edition)

Applications Development & Programming Languages certifications

- Microsoft Certified Solution Developer (MCSD)

Database certifications:

- Oracle DBA Administrator Certified Master (OCM)
- Teradata Certified Master
- Teradata Certified Design Architect

Systems Administration & Engineering/NOS certifications

- Citrix Certified Integration Architect (CCIA)
- HP Master Accredited Systems Engineer (Master ASE)
- Microsoft Certified Architect (MCA)

Networking/Internetworking

- Cisco Certified Internetwork Expert (CCIE, all variations)
- Cisco Certified Design Expert (CCDE)
- EMC Proven Professional Technology Architect – Expert SNIA Certified Storage Networking Expert
- SNIA Certified Architect
- Brocade Certified SAN(Fabric) Designer (BCSD)
- Cisco Certified Design Professional (CCDP) Cisco Certified Systems Instructor (CCSI) Cisco Certified Voice Professional (CCVP)
- Cisco IP Telephony Design Specialist
- CWNP/Planet3 Certified Wireless Network Expert (CWNE)
- EMC Proven Professional Implementation Engineer - Expert
- Nortel Certified Architect
- Avaya Certified Expert
- Cisco Certified Internetwork Professional (CCIP)

Security certifications

- Certified Information Security Manager (CISM)
- GIAC Security Expert(GSE)/Security Leadership(GSLC)
- Information Systems Security Architecture Professional (CISSP/ISSAP)
- Information Systems Security Engineering Professional (CISSP/ISSEP)
- Information Systems Security Management Professional (CISSP/ISSMP)
- Certified Information Systems Security Professional (CISSP)
- Cisco Certified Security Professional (CSP)
- GIAC Assessing Wireless Networks (GAWN)
- GIAC Secure Software Programmer (GSSP)
- Certified Information Systems Auditor (CISA)
- GIAC .NET (GNET)
- Check Point Certified Master Architect (CCMA)
- GIAC Certified Forensics Analyst (GCFA)
- GIAC Certified Intrusion Analyst (GCIA)
- Security Certified Network Architect

Architecture & Project Management

- IT Certified Architect (ITCA/Open Group)
- Project Management Professional (PMP)

General/Beginner and Training

- Microsoft Certified Trainer (MCT)

186 Noncertified IT Skills Surveyed (2009 IT Skills and Certifications Pay Index)

Apps Develop. Tools & Platforms

- Business Objects
- C
- C#
- C++
- Cobol
- Cognos
- Delphi
- Eclipse
- Flex
- Java/J2EE, SE, ME
- NetWeaver
- Oracle Developer
- PL/SQL
- Powerbuilder
- Progress/Development tools
- RAD/Extreme Programming/
Agile Programming
- Ruby
- Ruby on Rails
- SAS
- SQL Windows
- Tomcat
- Transact-SQL
- Visual Basic
- Visual C++
- Visual J++
- WebSphereMQ

Database

- Database management
- DB2
- dbase/xbase
- Java Database Connectivity
(JDBC)
- Master data management
- Microsoft Access
- Microsoft Exchange 2000 Server
- Microsoft SQL Server
- MySQL
- Oracle DB
- Progress/Apptivity
- Sybase Adaptive Server
- Visual SQL

SAP & Enterprise Business

Applications

- ABAP (all modules)
- Baan
- J.D. Edwards
- Lawson
- Oracle Enterprise Apps
- Peoplesoft
- Accelerated SAP (ASAP)
- NetWeaver BI (SAP BW)
- NetWeaver Portals (SAP EP)
- NetWeaver PI (SAP XI)
- SAP APO
- SAP Basis
- SAP BI Accelerator
- SAP Business
Workflow/Webflow
- SAP CA
- SAP CO
- SAP CRM
- SAP CS
- SAP EPM
- SAP ERP
- SAP FI – FSCM
- SAP FI - Travel Management
- SAP FI
- SAP HCM (SAP HR)
- SAP HCM ESS/MSS
- SAP IM
- SAP KW
- SAP LES
- SAP LO
- SAP MDM
- SAP MDX
- SAP MI
- SAP MM
- SAP MRO
- SAP Netweaver Applications
Server
- SAP Payroll
- SAP PLM
- SAP PM
- SAP PP
- SAP PS

SAP & Enterprise Business

Applications (cont'd)

- SAP Public Sector Management
- SAP QM
- SAP RF/Auto-ID
- SAP SAM
- SAP SCM
- SAP SD
- SAP SD - GTS
- SAP SEM
- SAP SM
- SAP Solution Manager
- SAP SRM
- SAP Web Application Server
- SAP WM
- SAP WM – EWM
- SAP xMII
- Siebel
- Web Dynapro

Operating Systems

- AIX
- AppleOSX/Tiger/Leopard
- HP-UX
- Linux
- Solaris
- Unix (all)
- Windows XP/Vista
- Windows NT
- Windows Server 2008/2003

Messaging & Communications

- Lotus Notes/Domino
- Microsoft Exchange
- Novell Groupwise
- Outlook/cc.mail/various clients
- Sun Java System Messaging
Server
- Unified Communications/
Messaging

ABOUT THIS RESEARCH

Foote Partners' primary research survey for tracking IT skills and professional certifications pay is the quarterly ***IT Skills and Certifications Pay Index™ (ITSCPI)***, first published in 1999 and updated every three months. 85,000 IT professionals in the 82 U.S. and Canada cities (1,960 organizations) are surveyed for IT salaries and skills pay earned for 371 certified and noncertified IT and management skills and certifications. Verified skills pay data for 22,850 IT workers has been included in the 2009 ITSCPI edition, compiled from data collected through April 1, 2009.

Demographics of the participating organizations for our latest update are as follows, measured most appropriately for the type of business, by revenues, assets, total premiums and operating budgets:

- 13% of participating organizations have \$3 billion+ in sales/\$15+ billion in total assets
- 25% of participating organizations earn more than \$1 billion in annual revenues or more than \$3 billion in total assets
- 42% of participating organizations have \$500+ million in sales/\$1+ billion in total assets/\$500+ million in premiums/\$500+ million operating budget (government, educational, not-for-profit)
- 58% of participating organizations fall in the SMB (small-to-medium sized business) segment, generally defined as organization under \$500 million in sales.
- [Public sector] 5% have operating budgets of \$500 million or more, [nonprofit/educational sectors] 4% with operating budgets \$100 million to less than \$500million

ABOUT FOOTE PARTNERS

[Foote Partners LLC](#) is a Vero Beach, Florida based management consultancy and independent IT research firm founded in 1997 that provides pragmatic and forward-thinking advice about managing the modern IT professional workforce. Comprised of former Gartner, McKinsey & Company, Towers Perrin, and Wm. M. Mercer analysts and consultants, and former corporate HR, IT, and business executives, Foote Partners has been a thought leader and trusted advisor to more than 1,400 employers seeking improvements in managing IT's impact on their businesses and customers.

- Certifications Guide containing basic information about surveyed IT certifications (pre-requisites; costs; test content; lab requirements, etc.)
- Pricing: \$2,250 single edition; \$8,750 annual subscription

Definition of IT skills premium pay

- Pay that IT workers receive for possessing high-value IT and business skills used on the job
- Given in the form of a bonus, or embedded in base salary to adjust for the presence of a dominant vendor or technology central to job performance (examples: Oracle Database Administrator, Linux Systems Administrator, Unix Programmer, or ABAP Developer).
- Often used to adjust either base pay or total pay in situations where job title does not match actual on-the-job duties and responsibilities, and changing the job title is not an attractive option
- May be used as a reward, recruiting inducement, retention tool, or as a guide for creating consulting rate cards
